

Project	Request	Type	Category	Country Reference	Description
MB - P.B.	013559	Enh.	GBO/BOR	NL	When a distributor expires a booking, only the GBO/BOR data of the exhibitor will be moved to an E-booking. The GBO/BOR data of the distributor will be send to MaccsBox for the correct booking using the GBO/BOR synchronization functionality.
MB - P.B.	013562	Enh.	Interface	NL	The Job queue processor sends an email notification to a system administrator in which it will include a log-file. In some cases there was no logfile and the Job queue procesor halted. This is now fixed. The Job queue processor keeps on running.
